SEVEN CAMPBELL HIGH SCHOOL BOYS ENTER FUTURE FARMER COMPETITION

Seven Future Farmers of America from Campbell Union High School will compete in the 1954 Farm Program Competition sponsored by the State Bureau of Agricultural Education and local F. F. A. Chapters, with the cooperation of American Trust Company. The local boys are: Tony LoBue, Fred Mattos, John Mitchell, Charles Niol, Randall Nutting, Richard Rice and Gary Steindorf.

These boys were selected to represent Campbell Union High school on the basis of the quality of their supervised farm programs. Each boy enrolled in vocational agriculture and admitted to membership in the Future Farmers of America must have a farm project. It might be the raising of sheep, dairy or beef cattle, poultry, grain, garden crops, or orchard crops, or other farm activities.

During March 15 to 20, more than 375 Future Farmers from 63 schools of vocational agriculture throughout Northern California will enter their farm programs for judging in seven sectional competitions. The sectional competition for the Campbell students will include other Future Farmers from San Jose High, Willow Glen High School, Abraham Lincoln High School and James Lick High School all in San Jose, Los Gatos Union High School, Live Oak Union High School (Morgan Hill), Fremont Union High School (Sunnyvale), and Gilroy Union High School.

The judging of the farm programs will be done according to the "Danish System". This calls for contestants to be divided into an upper half and a lower half according to the quality of the farm program. American Trust Company will award gold certificates to upper half winners and silver certificates to lower half winners.

The winners in this area will be announced and honored at a banquet, sponsored by the bank, to be held at the Sainte Claire Hotel, San Jose, on the evening of March 31. American Trust Company is sponsoring six additional banquets for winners in other sectional competitions.

The Farm Program Competition aims: (1) to encourage boys to enter farming as a life's work, (2) to encourage boys to become proficient in a major farm enterprise, (3) to encourage boys to diversify their farming programs when feasible, (4) to encourage boys to become farm leaders in their communities, and (5) to improve agriculture in the community.

"MAN WHO CAME TO DINNER" TO BE PRESENTED BY CAMPBELL HIGH

Just one week from today, Campbell Avenue becomes Broadway, and big time show business, in the form of "The Man Who Came To Dinner" takes over Campbell for a two-night run at the High School Thursday and Friday evenings, March 25 and 26.

This play, supposedly based upon incidents in the life of the fabulous Alexander Woolcott, was such a smashing stage success on Broadway, that it was made into an MGM movie starring such "crazy" characters as Monty Woolley, Bette Davis, Groucho Marx, Jimmy Durante and Anne Sheridan.

Now Campbell High takes over, under the direction of Ken Wallace, and shows the world, or at least the citizens of Campbell, its version of how "The Man Who Came to Dinner" should be done.

Not only does the show require a record number cast, but the lavish set required the services of twenty five senior carpenters and thirty decorators who have been swarming over the stage for two weeks to emerge with one of the most luxurious scenic designs ever to back up a senior play.

Hearings Scheduled For Three Zone Variances

The city council on Monday night set the evening of April 12 as the time for hearing three applications for zone variances on widely separated properties within the city limits.

The Kuehnis Estates seeks a change from R-1 to R-2 on units number one and two located south from Hamilton avenue between April Way and Richlee avenues. Western Gravel company seeks a classification change from M-1 to M-2 for lands south of Campbell avenue near Los Gatos Creek, while the Campbell Water Company seeks zoning change to R-1 for lands in the westerly limits of town near San Tomas Aquino Creek.

To take care of rapidly developing properties along the San Jose-Los Gatos road between Hamilton and Campbell avenues, the city council authorized installation of two more fire hydrants. Jack Scott, fire chief said this may save laying hose out over the busy highway in the event of an emergency.

Two firemen were placed on permanent status after having served six months probationary period and having successfully passed the civil service examination given at the office of Councilman Joseph Dahl. They are William Morgan and Fred Jones, Jr.

The council decided to allow one sycamore tree to be removed and one to remain in front of the Flood property at 26 Stanford avenue. LeRoy Black, public works department said the roots of but one of the trees seemingly had invaded the sewer line. Acting Mayor Gomes voted against removal of the tree, suggesting that a replacement be made with a tree having a deeper tap root. It was a different situation in front of the Jose Carter property, 27 Dillan avenue, where there was a dead tree.

Mark Thomas, city engineer, said he was working on changes proposed in the excavation and the sign ordinances. Thomas also reported that improvements had been made at the new Sunberry Gardens subdivision and that owners had agreed to correct a drainage condition there, so by 3 to 1 vote the council approved the subdivision map. Councilman Jensen casting the negative vote on a contention the work should be performed first.

On recommendation of Engineer Thomas the council approved improvements in units one and two of the Kuehnis Estates.

Wallace S. Meyers, governor of district 155 Rotary international was the principal speaker. His topic was "The Meaning of Adventure."

Also presented to the assembled Rotarians was district governor elect George F. Bacon, from Santa Clara.

Honored guest was Mrs. Laura Arends, wife of first president of the Campbell Rotary, James B. Arends Sr.

Also present at the dinner were presidents and secretaries from all Rotary clubs in the surrounding territory.

Matters before Santa Clara County Planning Commission meeting last night at the Civic Center, San Jose, included an application to build a trailer park or cottage court on property on the north side of Farley Road between Santa Clara-Los Gatos Road and the Southern Pacific Railroad right of way, and an application to build a privately maintained community center at the end of Lucot Way off Vale avenue.

Leonard Scherbinski applied for an adjustment in the provisions of the zoning ordinance to extend the M-1 zone into the R-1A-B-D zone to permit the construction of his trailer park or cottage court.

Steven B. Anderson applied for a use permit to establish his privately maintained community center in an R-1-B-D zone at the end of Lucot Way.

Public hearing was also held on the application of Roselawn Methodist Church for a use permit to construct and maintain a church on property in an R-1 zone located on the north side of Fruitdale avenue between San Jose-Los Gatos road and Sherman Oaks.

New officers for the Association elected at a dinner meeting last Wednesday in the cafeteria of the Campbell Grammar School include: Lowell Benson, president; Glen Skillrud, vice-president; G. E. Jeffers, secretary-treasurer; and on the board of directors: Jack Arends, W. E. Means, Cel Gerevas and Emily McConnell.

Bottling Plant Plans Delayed In Court Order

Proposed construction of a \$750,000 bottling plant and warehouse on the Saratoga-Sunnyvale road was stymied again this week, as Quito residents won a suit to revoke a use permit issued last May to the Paul Masson Winery Company.

Superior Judge John D. Foley ruled Tuesday that improper procedure in granting a change of zone, nullified the amendment to the county zoning ordinance, and the permit was null and void, as charged in the suit by Stanford and Lucille Lee, and Ernest and Anna Belle Marines, asserted representatives of Quito district homeowners.

The battle started 20 months ago, when the Winery company was granted a change of zone for property on the Saratoga-Sunnyvale road from residential to industrial. At the same time a use permit to construct the bottling plant and warehouse was issued.

Many of the residents of the district claimed that the change of zone left the area wide open for industrial development, and would, as a result, lower their property values.

The suit was brought against the Board of Supervisors and County Planning Commission charging that procedure for amending the county zoning ordinance to permit the change of zone was not followed, that it was thereby illegal, and that no sufficient evidence was produced to warrant the amendment and the issuance of the permit.

Judge Foley in upholding the first assertion, ruled against the second.

Foley held that the court could not interfere in the discretionary power of the board and commission to change the zoning ordinance.

Protest Sent To Governor Knight

Campbell Church Gives Substitute Loyalty Oath

At the conclusion of services Sunday both congregations at the First Methodist Church expressed themselves regarding the loyalty oath declaration required for tax exemption purposes. Out of 253 present, twelve voted yes, 21 voted to sign under protest, 35 voted not to sign and 53 to sign a substitute declaration affirming loyalty.

The church board signed the substitute declaration and sent letters of protest to Governor Goodwin Knight, Assemblyman Bruce Allen and Attorney General Edmund G. Brown. The loyalty declaration and letter of protest were prepared by a committee including William Beyer, LBen Howard, Bessie Kennedy and the Pastor Herbert W. Neale.

The letter, signed by George S. French, chairman of the Board of Trustees, stated:

"We believe that in these days of physical and philosophical struggle, that one of the most vital requirements for the United States is unity among its own factions. We believe that there are forces in existence seeking to destroy this unity through mediums such as the requirements of loyalty oaths. If by such devices loyal Americans can be put in the position of apparently refusing to support their country, because they resent coercion, the objectives of our worst enemies will have been realized. Loyalty must come from the heart—it is not an emotion which can be generated by writing on a piece of paper."

"Therefore we respectfully protest the implication that our patriotism is suspect unless we sign a statement that we are patriotic. We feel that our record warrants no such assumption. We are happy to offer our country our loyal support in any worthy cause, but we resent the coercion implied in having to sign a statement of loyalty or submit to a penalty."

"We also protest the un-American plan of judging people guilty who do not state that they are not. Such an un-American practice is apt to develop into a lethal blow at our most cherished freedoms."

"We feel strongly that the signing of a loyalty oath by an organization will never trap real subversives, only annoy people whose patriotism should never have been questioned in the first place."

The alternative declaration signed and filed by the church is as follows:

"The Methodist Church has a long and splendid record of patriotic service to our nation. It has been in the fore in education and moral leadership, standing for basic human freedom. Our own Campbell First Methodist Church is no exception to the church as a whole. Therefore, we willingly go on record as affirming our loyalty to our country and to our state."

"Since our Church believes in the sacredness and dignity of each individual, and since we follow Jesus Christ and are committed to His way of overcoming evil with good:

"This organization does not advocate the overthrow of the Government of the United States or of the State of California by force or violence or other unlawful means nor advocate the support of a foreign government against the United States in the event of hostilities."

"We do not imply in proffering this statement at this time that the state can exercise any control over the church in abridgement of the rights of the first amendment of the Constitution of the United States."

"We, as Christians, feel obligated to defend whatever is right and Christian wherever it is found and by whomsoever practiced, and to oppose what is un-Christian regardless of where it is found or by whom it is practiced."

NO POEM SO LOVELY AS A TREE

Trees are a never-ending problem with city councils everywhere. In some cities an ordinance is adopted designating certain species for curbside planting. Sacramento, for instance, is one of the best of California tree-lined cities and any effort to cut one of them down gets the same response as if someone attempted to strip San Francisco of its Powell street cable cars.

Some places favor the black acacia, while others want it replaced with a tree with a deeper tap root. Roots of some trees wander about in search of water. They might even clog up a sewer line. Some trees, like the camphor, have a strong tap root and do not send out exploratory roots. The Kwanzan cherry tree has been unofficially designated as the tree for each home in Campbell, and so far it has presented no problem. It is the tree roots that clog the sewers, raise the sidewalks and otherwise cause city councils to debate whether to cut them down or plant more of them. It is not a new problem, but it is a serious one.

No discussion of shade trees in this area is complete without mention of the work being done at the Saratoga Experimental Gardens by M. Van Rensselaer. This nationally-known botanist specializes in the development of trees suitable for curbside and city planting and is the source of the most authoritative information on this subject in the United States.

THE LEGION HAS A BIRTHDAY

Founded ten years ago, the Campbell Post of the American Legion serves the interests of veterans in this area of all American wars. The Legion this week observes its thirty-fifth anniversary. There are now 58 departments and more than 17,000 posts—the largest of any veterans organization.

There are many activities within the Legion itself which have made it a strong factor in American life. The building of a network of government hospitals, creation of the veterans' administration, enactment of both federal and state laws affecting the disabled veteran, their dependents and widows are among the accomplishments.

Here in Campbell, a building site for a Legion Hall was provided for as a memorial. There is a common interest among war veterans, and there is hardly a family not connected with their welfare. The local post is in need of more members, all of whom will share state and national benefits as well as maintain the local organization in its rightful place in community life.

FRUIT OF THE VALLEY

Blossomtime is unfolding a carpet of beauty over the entire Santa Clara valley today in a profusion of apricot, prune, cherry, peach and pear blossoms opening one by one. Thousands of visitors will be on tour in the next few weeks, and they will visit some of the historical spots, such as the Winchester Mystery House just outside the Campbell city limits, the fabulously large Permanente plant, the Almaden mines, Alum Rock park, and the rose gardens of San Jose.

Ranchers, aware that blossoms will produce his fruit, watch the rainfall, the frost warnings, the threat of hailstones and receding water tables. The visitor though, sees only the blossoms and thinks how wonderful it must be to live here amongst them. It is all a matter of how we look at things that we are able to value them.

PRAISE FOR THE COUNTRY PRESS

Lavish praise for the country press recently came from a top government official—Secretary of Commerce Weeks. He said: "When the history of this age . . . is fully described, great credit for maintaining our freedom will go to the country and suburban newspaper."

"The weekly press is the community's loyal, trustworthy, warmhearted friend. It knows everybody. It goes into every home as a welcome guest. It keeps neighbors acquainted with each other. Its advice is wise and its sympathetic interest is genuine. It fosters civic pride and an enterprising community spirit. It is the stout champion of the moral principles that make America great. And it tells the truth."

The highways of life are filled with people trying to find a short cut to eternity.

Buccaneers Start League Play Next Thursday

Only one more practice game remains on the Buc baseball roster before league competition starts at Los Gatos, next Thursday. Tomorrow afternoon they go to Santa Cruz and Bert Nolan has been assigned opening pitching chores.

To date the Campbell nine has two wins and two losses on its pre-game practice roster. Two games have been rained out.

The Buc nine dropped a 7-2 practice game with San Jose High School Monday at the Campbell field. Larry Sutton pitched well for Campbell but lacked control by issuing seven walks in the seven inning game. It was the work of Owen Hand, the San Jose Junior College third baseman who turned the tide against the Buc crew. Besides handling seven ground balls with errorless grace, he broke up a close game in the fifth inning with a three run homerun later collecting a two-base hit.

Takaha, Ryley and Nunez collected Campbell's three hits. Nolan, Camuso, Guerra, Hand, Saulan were credited with hits for the San Jose team.

The winning runs came in the fifth on Campbell errors.

San Jose's Bob Cruz allowed Campbell six scattered hits in the loosely played ballgame. Cruz also drove in two runs to lead his teammates to the victory.

Junior Morgan Is Optimistic

SCVAL RELAY MEET SCHEDULED TOMORROW ON LOCAL TRACK

The Campbell High track team will make its second inter-school outing tomorrow as one of seven participants in the Santa Clara Valley Athletic League's annual relays being held this year on the Campbell track. The event has been rained out now for three years in a row, but fair skies are predicted and Campbell High's Track Coach, Junior Morgan, is optimistic.

Santa Clara, James Lick and Los Gatos all came out losers in their initial dual meets just a week ago. Morgan says, "Campbell should have a strong varsity dual team led by Bill Gregg in the weights, Olon Forrest in the high jump, Satterfield in the pole vault, and Cureton and Sprecher on the hurdles. Freshmen who have looked good so far include Barry Miller and Monty Nielsen in the sprints."

Track events scheduled tomorrow include the 440 yard relay for all four classes, the 480 yard shuttle low hurdle relay with two D's and two C's running in one race and two B's and two A's running in another, the four two-mile and mile relay for A and B classes, and the shuttle high hurdle relays with two A's and two B's running 120 yards each. There will also be run off a four-man 880 yard relay for both A and B classes, and a sprint medley (50-100-220-440) for A's and B's. One

contestant from each division will compete in each field event, with winners determined by the combined heights or distances of a school's four participants.

They are sponsored by the CUHS Student Body, the CUHS Dads, and the Campbell Kiwanis, Lions, and Rotary Clubs. The speaker for the evening has not yet been announced, but they are always top-drawer.

In general charge of all arrangements is George Miskulin, director of athletics at the high school. He wanted it made clear that this is not just a "father-son" affair and that mothers are cordially invited to attend as well.

Team members will be fed and entertained free-of-charge. Others may attend by paying a nominal fee of \$1.50.

Portable telephone building. This small but fully equipped telephone central office was recently moved by truck from one site 335 miles away direct to Pepperwood, California. By moving it intact, telephone people cut 20% from the cost of installing a telephone system in Pepperwood. And they speeded the job by about five months. An unusual story, yes. But it shows how we're doing everything we can to bring you more service, good service, at the lowest possible cost to you. Pacific Telephone works to make your telephone a bigger value every day.

Cherry Lane School Plans Party Friday For Playground

Cherry Lane Home and School Club calendars a fund-raising public card party for Friday, March 19th, in the Cherry Lane multipurpose room at 7:30 P. M. Members and friends of the club are reminded to mark their calendars.

Proceeds from the evening's activities will go towards much needed playground equipment for the new school. Cherry Lane Home and School Club was founded this year to bring the parents, teachers, and children closer together in an informal relationship. This is being accomplished through various social activities. These activities are financing the immediate needs of the new school. Thus far this active group has financed and built two sandboxes for the kindergarten and first grade classes, installed two basketball standards, and has plans for building a baseball back-stop and for purchasing base bags.

Mrs. Ralph C. Weymouth, program chairman, announced that guests and members will have a

Music Festival To Be Held In Campbell Soon

A county-wide Music Festival featuring school bands and orchestras will be held all day, Saturday, April 24th, in the Campbell Union High School Auditorium. Richard Gordon, director of the Campbell secondary school band and orchestra, will act as festival chairman.

Gordon said today this will be an "attempt to bring the festival to Santa Clara Valley rather than transport musical aggregations up to San Francisco or Berkeley for festivals up there. We hope that it will provide a memorable performance situation for almost every secondary school musician in the county."

It is doubtful that there will be evaluations; it is thought that these have too often been too severe in the past. The all-day activities of the Festival will include listening as well as playing. It is hoped that every musician will learn something by seeing others in action as well as by playing himself.

All elementary school bands and orchestras and all high school orchestras are invited to participate. Registrations are being made through Mr. Henri Zander, the Santa Clara County Supervisor of Music.

Mail Carriers Needed

Permanent carriers or clerks are wanted in the United States Post-office, Ira H. Grim, Campbell postmaster said today. Advantages of the job include good pay, time-and-a-half for overtime, regular wage increases, liberal vacations, sick leave with pay when sick, unusual retirement provisions, promotion possibilities, and job security.
